

Before Jan. 28, 2022...

Luke Wenke does not know a single thing about criminal court or how jail and prison works,

2024...

Luke Wenke knows all kinds of legal nooks and crannies such as the possibility of a person getting arrested, being placed in any county jail, and immediately being put in a private room like the one I am currently in as of July 13th, 2024 even though you could be falsely accused of a crime and falsely accused of breaking a jail rule.

I am not talking about my case. I am talking about any case. I am aware a person can legally get arrested and sit in jail for up to 10 years unsentenced with no court progress.

This very basic legal fact crossed my mind July, 2024. Imagine living for 10 years like this.

A Shred Theatre show about the mindless philosophical ramblings an inmate would speak out loud to themselves while living in a room like this day after day.

Making food at commissary in the sink while singing "Ten Fucking Years In A Stupid Fucking Room" to the similar tune both Paul Kenyan and Katie absolutely remember singing "Thloppy Twat, Thloppy Thloppy Twat Yeah" is not a sign of a mental illness. It is a sign that my mind thinks of better things to do with everyone I know during better times.

• Paul Kenyan will testify for the 2015 dinner theatre/cancer benefit I did at Good Times of Olean which made Katie jealous as I gave all of the money to Angel Woods Lycett who Paul still lives with. Carl Paladino donated to Angel, too.

• The suggestion is so simple I shouldn't have to draw cartoons to spoofed the idea to court professionals who typically deal with scumbags like the Tops Supermarket Shooter. I am simply suggesting a positive project. Dedicate the show's proceeds to a clearly needed Buffalo Federal halfway house's down payment/renovations and put it into Katie's name in the Sinatra courtroom.

Luke Wenke
- Trying desperately to make good with everyone

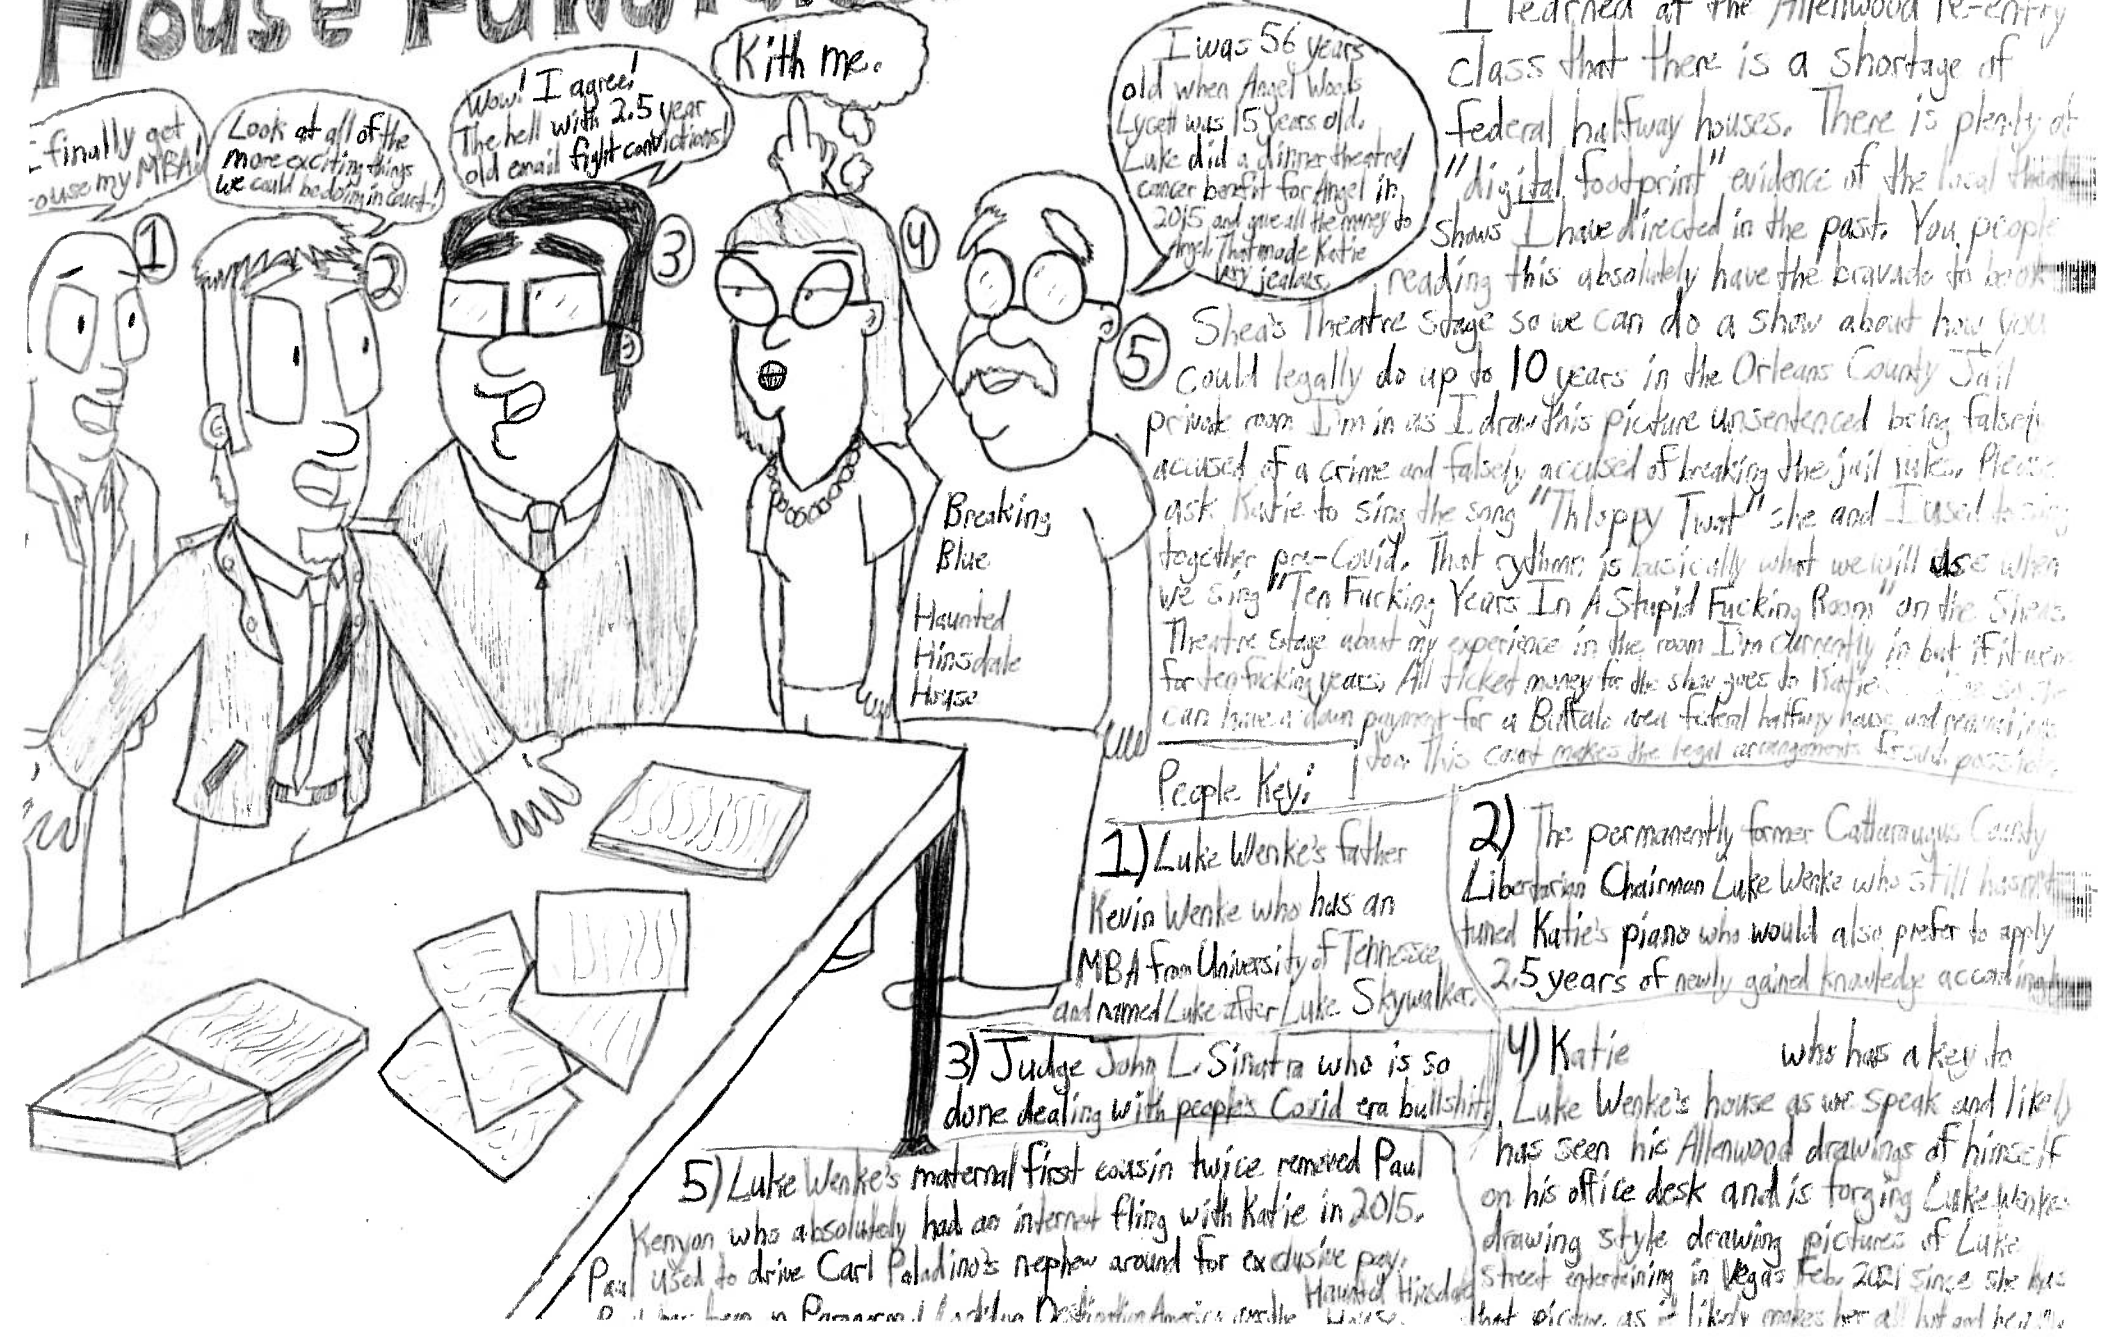

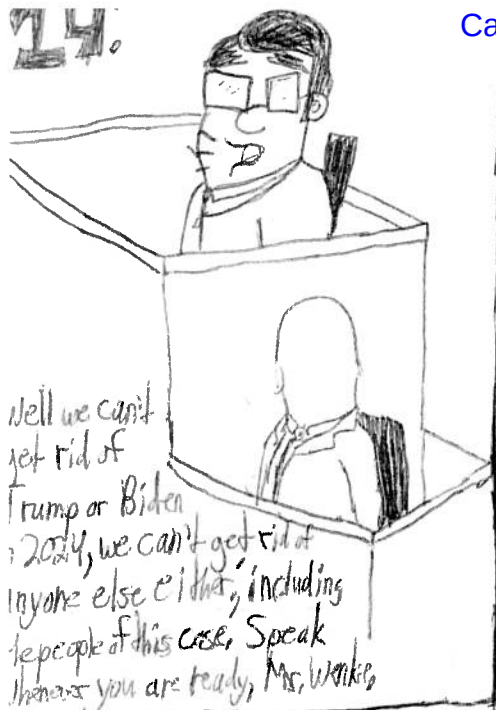

Danny Maslousky
- Hyde from the 70's show who was an asshole, raped two women, and got 30 years

"Covid upended the hierarchy."
- Alexander Anzakone to Luke Wenke

Federal Halfway (Among Other Agenda Items)

House Fundraiser @ Shea's Theatre

Well we can't get rid of Trump or Biden. 2024, we can't get rid of anyone else either, including people of this case. Speak whenever you are ready, Mr. Wenke.

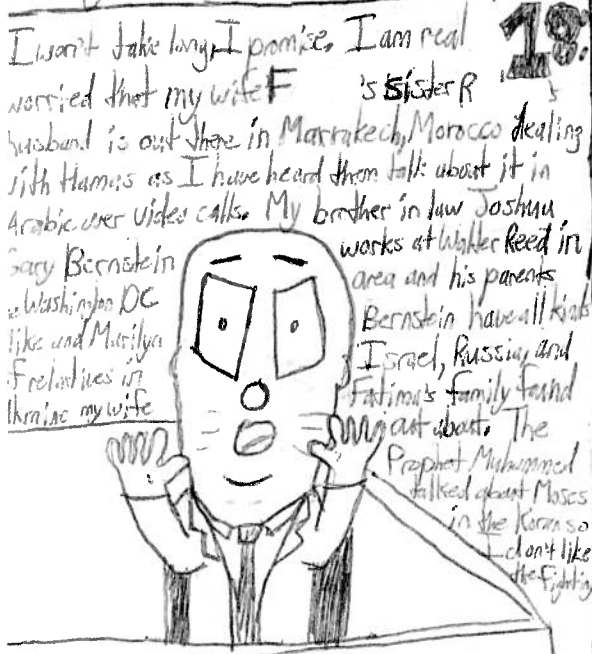

Up here said, what a world we live in these days. We're using the word "Snitch" and the hierarchy was upset during Covid just like Alexander Anzalone said in 2022. I never met Paul Kenyon before this. I divorced my first of four wives very early on. So all I ever really dealt with on Luke's mother's side was his grandmother Carolyn Giardini, a former Italian American Judge who helped her daughter beat me school in family court. I moved to Florida to avoid arrest in New York state.

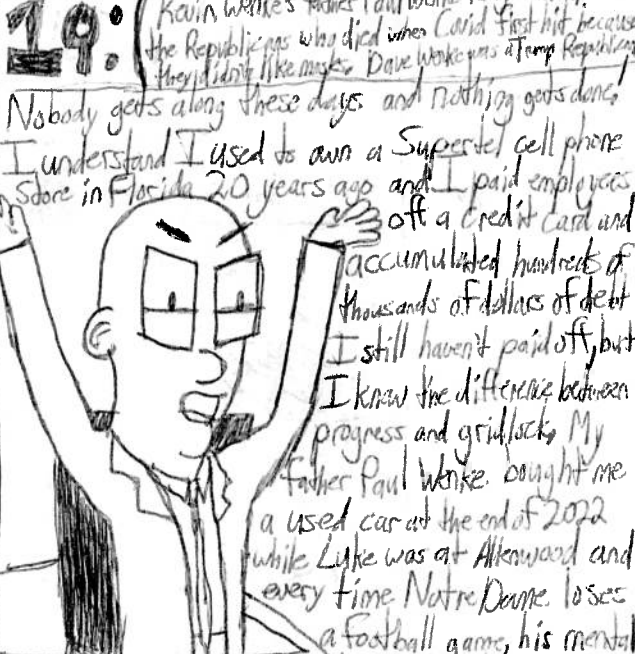

Walt Nye was once a high up executive at Siemens Dresser Ranch of Olean and John Crawford of the Olean Common Council based to work under him. Frank Passafiume has John's contact information. Uncle Walt once golfed with Dick Cheney. He also owns a chalet in Ellicottville all the Canadian tourists go to.

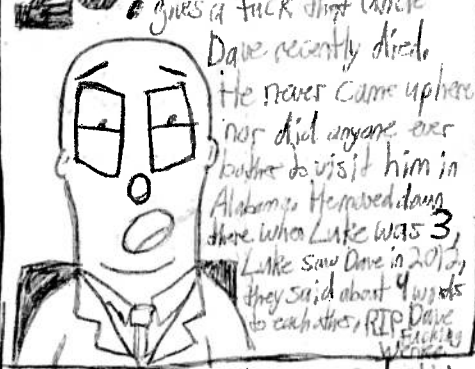

I'm telling the tank in court today. Qi gong and Reiki experts agree that things like lymph node cancer and Crohn's Disease means your tank chakra is off. Ever since Covid I've been eating a certain kind of mushroom that looks like gold. Lymph node cancer not know how Brett Disease is cured but once. I'm doing these days.

I won't take long, I promise. I am real worried that my wife's sister R's husband is out there in Marrakech, Morocco dealing with Hamas as I have heard them talk about it in Arabic over video calls. My brother in law Joshua Gary Bernstein works at Walter Reed in the Washington DC area and his parents like and Marilyn Friedman's family found him out about. The Prophet Muhammad talked about Moses in the Quran so I don't like the fighting.

19: Nobody gets along these days and nothing gets done. I understand I used to own a Superdell cell phone store in Florida 20 years ago and I paid employees off a credit card and accumulated hundreds of thousands of dollars of debt. I still haven't paid off, but I know the difference between progress and gridlock. My father Paul Wenke bought me a used car at the end of 2022 while Luke was at Altkward and every time Notre Dame loses a football game, his mental health absolutely goes in a bad direction his last surviving sibling Peggy Bergstrom of [redacted] in Olean will testify in court about. He won't stop aggressively yelling at his ex-wife/my mother Cindy Nye Wenke about all of her parents' Frank and Ellen Nye's unrequited love letters in her journal. His

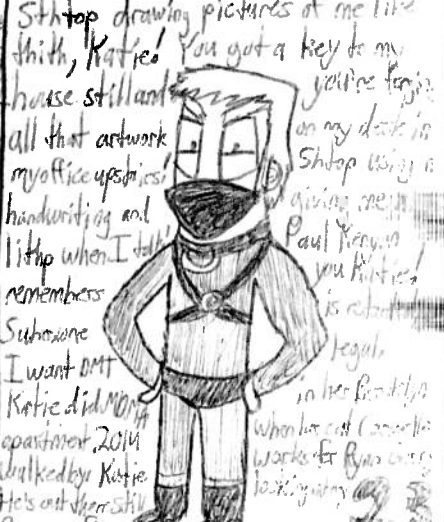

20: Nobody in the Wenke Family gives a Fuck that Uncle Dave recently died. He never came up here nor did anyone ever bother to visit him in Alabama. He married down there when Luke was 3. Luke said Dave in 2012, they said about 4 words to each other. RIP Dave Wenke.

22: We gotta end this case.

21: That's it, Tim Luce. No take statement in court convictions coming my way today. Qi gong and Reiki experts agree. Telling the truth got me out of my lymph node cancer. (Phew) I don't know how Brett Cronk's Disease will not up in this court. Get the Capitol Riders out of Luke's shorts up in this court.

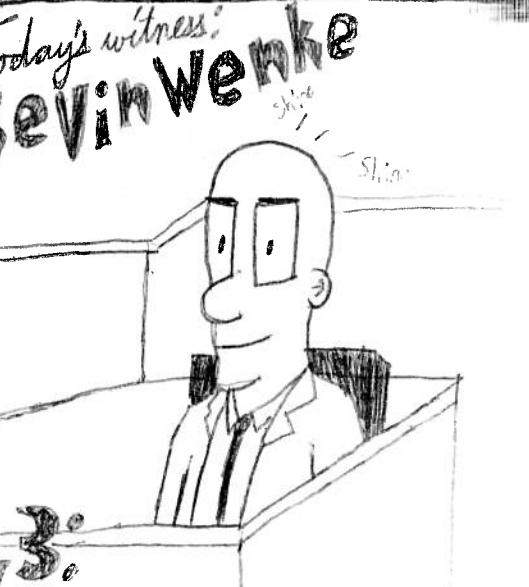

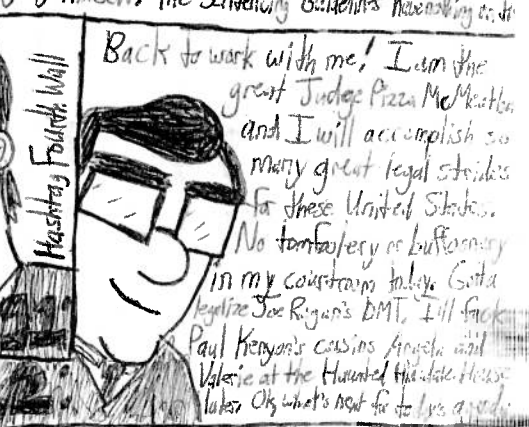

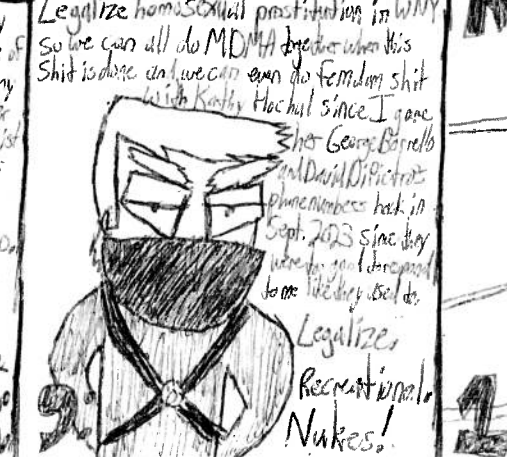

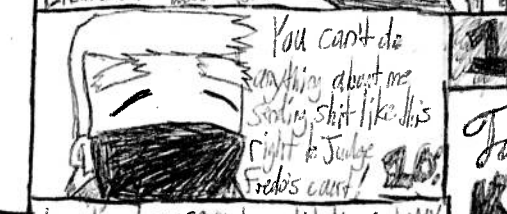

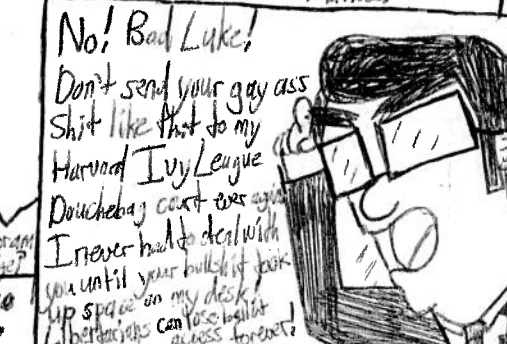

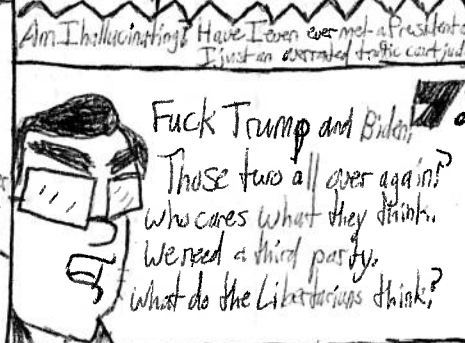

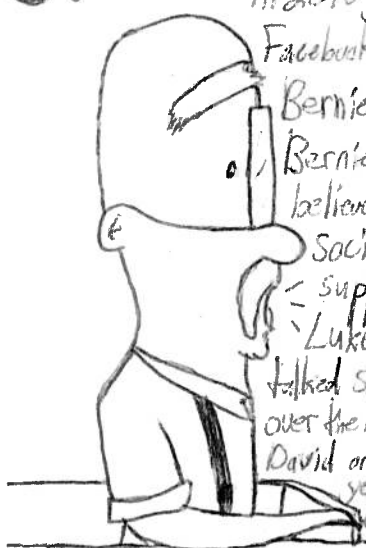

Stop drawing pictures of me like this, Katie! You got a key to my house still and you're forgetting all that artwork my office upstairs' handwriting and lit up when I tell you remembers. Subzone I want OMT. Katie did my apartment 2014 walked by Katie. He's out there still. I'm in her Brooklyn when her cat Casella works for Ryan going looking for my

I don't answer any phone calls that come my way from Orleans County Jail so I can be informed about an apparent job opportunity coming my way over a contract agreement in this court so I can stop illegally burning at Monty Shopkeepers

Sinatra Criminal Court

They're not reading my letters to the editor, so maybe they'll read these in the Sunday Turnups!

Me and Angel in 2016 just like Luke did. Luke had a Facebook page called New Yorkers For Bernie Sanders. He went to go see Bernie at the Rochester Ice Rink on I believe April 19th, 2016. But then that Socialist millionaire lost so Angel and I supported Donald Trump right away. Luke voted for Hillary so me and Angel talked shit to Luke right on fucking Facebook over the matter. Luke didn't know Carl or David or George Borrello or any of those people yet so who cares. My cousin Carolyn Giardini wrote in "NOT A" for President in 2016.

Reasonable suspicion to believe John Sinatra's court never expected a Ukraine and a Kravyn to have La Costa, N.J. in the Facebook world.

All the motherfuckers at the Udon area remember me playing Pokemon Go when that came out in 2016. We all went behind St. Bonaventure University to play that since we were all just a bunch of unemployed losers. Angel's mom Tina came with us too. I remember Luke's old Domino's coworker Ron Travis playing with us too. I used to call Hoppie "whirly bird".

Why the fuck did you put threat to Society in the paperwork motherfucker?

Paul's grandfather/Luke's great great grandfather Engildo Martinelli played organ for a Pope.

What else do you want me cartoon of myself? Subpoena courtroom this John Sinatra runs. Me and Angel had one off our front porch as of Carl I can't deny knowing me. About my Facebook messages to share at Orleans like Bob Giardini Allegory already exist at her mother people I mentioned in the phone to hear

to say over this stupid looking me right into that Fredo Dano Pizza Pepperoni Meatball Mf0 big Trump 2024 flag flying Sept. 2023 and Luke saw it. Luke's mother Janet has talked her right on that recorded jail court. If I drop over dead of [redacted] did then call Angel into Tina or any of the other here. Download GhostTube me in that courtroom. #Dandy House

7.

8. Who the fuck draw this stupid fucking picture of Carl calling me a fucking faggot? I used to drive taxi for this asshole's nephew.

How about John Motherfucking Sinatra Speaks in Carl for U.S. Ambassador to Brazil when Trump came back for reasons discussed in call in 2024.

Never became a billionaire, Loser, Underachiever.

Paul Kravyn is a faggot.

#Digital Footprint

I was in Appeals Court in 2024 and to the Law Library. That's high level distinction.

Palatino 2024 Still Mad As Hell Fuck Liabards

Palatino 2010 Mad As Hell

Smokes way too many cigarettes than is good for him. Prayers for Paul. Needs to finally marry Angel at St. John's.

Did I used to draw pictures of Katie naked and send them to her on Facebook back when I was talking to her? Did Katie break into Luke's house and get those copies of Luke's drawings of himself on his desk? Is Katie gonna forge a fake picture of Katie's fucking art and put it into that fake fucking digital footprint belt?

Judge John 2
Sinatra's courtroom

Judge John 2
Paul Kenyon

Call me into this courtroom and that's what I'll say. I am a 72 year old Fredo Dago and I live with a 31 year old named Angel Woods Lycett. We were 56 and 15 when we first met at St. Bonaventure. Through he and my named Carolyn grandmother. She NY, Luke impersonated ago and another I have great none of my once a

My maternal grandfather was a professor of music. University and his name was Ergildo Martinelli. grandmother Loretta Martinelli I had a first cousin Panada Giardini and she was Luke Wenke's mother. Was the Justice of the Peace for the Town of Cassale Carolyn and her husband Jerry on YouTube over 10 years. Fredo Dago named Frank Passafiume has seen that video. grandkids who live way the fuck out in Missouri and Western New York relatives ever met them. I was brother in law to Kevin Bartholomew of Olean and he wrote a letter to this court on Luke's behalf in 2020.

2: Yep La Costa Not on and whatever other Fredo Dago fucking bullshit you want me to talk about in this courtroom once you issue a subpoena to me and Angel at in Portville. I wrote a book on the Haunted Hinsdale House out on the McMahon Rd. "You Know They're Here" or whatever I called that stupid fucking pile of paper. I was also on tv because of that stupid fucking house so ask me about that too John Sinatra you fucking wops. Luke brought both Larry Sharpe and also Vermin Supreme to that house before Covid

thanks to my help. All the ghosts are telling me Luke met that faggot piece of shit Benjamin Fucking Faggot Fuck through Vermin. Yep my name is Paul Kenyon and I have been face to face with Vermin Supreme at the Haunted Hinsdale House right after his Olean Napoli's concert with Sniffy McGeddon's Dreadnoks band. I did not support that stupid fucking nigger spate Larry Sharpe like Luke did in 2018, and Vermin was a fucking joke. I absolutely was a part of Luke's old Facebook group "Let's Bitch About Cream" before it got shut down in 2020.

3: I used to own a \$1 million+ security company in Arizona before I sold it and wasted all the money on a bunch of fucking bullshit. I used to drive taxi for Carl Paladino's nephew. Luke met Carl at a 2015 Lincoln Park of Olean Teen Party event thanks to me. Carl called me, Paul Fredo Fuck Kenyon, a faggot for shaving my legs right in front of Luke. Carl was Luke's first vote in 2010. Carl and Luke met again in Carl's office at Elliecott Development in 2019 with Carl's dog Duke present in the office. Carl had Luke in his bowling league email invite at the end of 2020 but Luke was too busy driving Uber in Buffalo crying over that faggot fuck Benjamin Treder to come do anything with the rest of us. Carl's friend Rich Thompson used to hate Luke's Facebook posts. Assemblyman David DiPietro has been in The Financial guys with Carl and he went to that cream cheese and bagel place with Luke at his East Aurora house in 2011. David's wife Theresa DiPietro used to like Luke's Facebook

4: Boppity boppity boppity fucking keep with all of us Fredo fucks in John Lasagna Sinatra's courtroom as we testified on behalf of this 25 year old email fight with a retarded piece of garbage Luke never even fucking met. What's this I hear Katie works from home for him? I remember Katie going way back to 2014 and 2015. Katie even changed her Facebook name to Katie Kenyon for me for a while. Boy oh fucking boy did Katie get jealous when Luke did a dinner theatre/canoe breakfast for my then and current full time lover Angel Woods Lycett at Good Time of Olean. Lucky Smokey and Lipstick raised their hand for Angel. Mr. Gilio Fredo Fuck called me a faggot to that

9

But hey! While I was in the court changing things up and dialing it up a notch and drawing pictures of ourselves right to the fucking court openly asking questions over recorded phone lines and in writing such as "What kind of drugs do Vilando and Accara's relatives deal out there that got weeded shut down?"

Abraham's lawyer's office let's just say that in no way shape or form is it a form of unrecited bipolar disorder that I knew plan on illustrating the defense to my case since I finished up the prosecution on the first side this page.

10

guy my FBI Discovery process was behind that fake Recon profile asking if Benjamin does in fact have a fetish for boots and rope so he could re-enact it with his wife Theresa. Had I known Katie worked professionally from a laptop at home for that guy I absolutely would have been more than happy to have her act to that city manager's employees at the annihilation my been a positive significant others listed the Covid social life learned at Horizons, we helped when people like Devin the catnip picking nigger porch monkey spits on its own in jail. Face to face social interactions are mental health right

I called FBI after Facebook shut me down once I came back home from Minneapolis because I did it went anyone to think I did anything out there. I only went out there because a Facebook friend from the North Carolina Libertarian party named Benjamin is acting stranded. New York state governor unemployment, North Carolina did not. I told him we needed federal funds - the city of Olean as I saw he was mechanical and I said time know when you're done hanging around Teganika's people so can come back to get your. I did not know at the time he is one of the major arsenals and I just met him as always.

11

I never even heard of Hamas as of Sept 2020, military because I turned 18 in 2010 and by then I saw the middle east was were. Andrew and Krystie assumed I knew what Benjamin was doing at in Minneapolis on a daily basis as I minded my own business at home, and when we assume you make an ass out of u and me. The Olean Police, 15 months later Jan. 2022, lied to me when I was asking them to help with my neighbor's violence and they asked me to help with Amber Chyppman, who has since been evicted. There was Andrew and Krystie coming around the corner I open assuming all kinds of things about my daily life.

23 Alex told me if I took this to trial I would be facing 4-5 years. No, obviously, *Courtesy v. Colorado* 600 U.S. 66 has since been vacated and remanded by the U.S. Supreme Court. Donald Trump's mugshot, Hunter Biden's illegal gun paperwork, America went Bolshevik in 1917 during Covid, shame on our ignorance. I'm the only openly suggesting things like cameras all over my street and ideas like billions of public safety satellites orbiting the Earth run by Homeland Security so I am obviously not trying to hide anything. I should not be screaming on the phone on behalf of a house I worked for and paid for myself because of an infraction of this nature. I even helped Officers at Altonwood with Red Sources on top of openly suggesting the Sierra Nations of Indians sell all drugs.

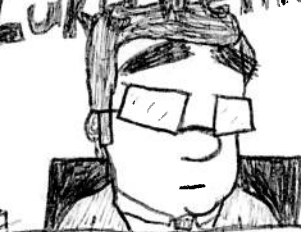

14 Feel free to subpoena everyone finally once you read up on how the B.O.P. operates separately from California on top of studying the sentencing guidelines. I have more comic strips to draw for the court to pass the time in this case. I'm in for no reason this very long we need!

Judge John L. Sinatra's courtroom

Today's witness:
Luke Wenke

This is why this happened to me...

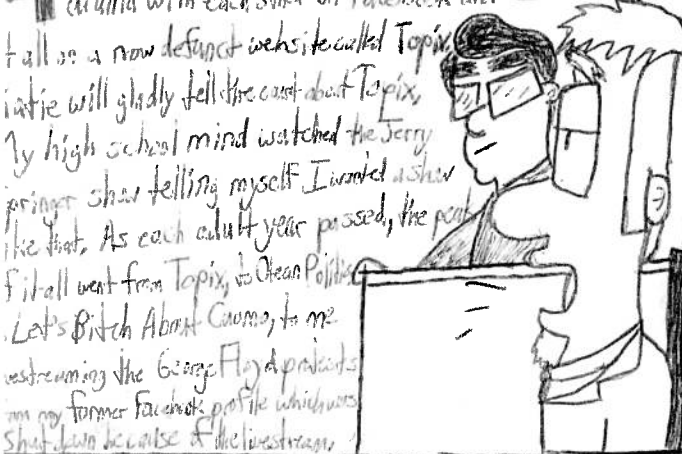

obnoxious groups on Facebook such as Olean War Zone, once known as Olean Politics, where people stalked each other all day like a gossip forum and I even encouraged people to make fake profiles discreetly. March 2019 work at Domino's so I was home laughing at all the people in a WIVB article as they about Andrew Cuomo every day. So I made a new group for commentary all 716 "Let's Bitch" well over 10,000 members in a matter of time. I even encouraged people to fight with each other. We had a few weeks of drama on Simon & Schuster in the community support group. I senselessly bitched time he made the next all the #FUAC daily people are familiar with. About Cuomo had members in a matter of time.

3

4 Even in the early 2010s, I would read people's drama with each other on Facebook and I would repeat it all as a now defunct website called Topix. I will gladly tell the court about Topix. My high school mind watched the Jerry Springer show telling myself I would never be like that. As each adult year passed, the post fit all went from Topix to Olean Politics. Let's Bitch About Cuomo, to me, I was streaming the George Floyd protests on my former Facebook profile which was shut down because of the streaming.

5 So in the early during Covid Omicron when everyone reached a breaking point and therefore making everyone show their true colors, this "pattern of activity," a criminal court phrase I absolutely remember absorbing and giving thought when I heard David Rudloff say it in 2022 in court, all boiled down to me making a fake burner number and taunting a bunch of people I knew for years who I found annoying during Covid Omicron. I texted Barry Broughton of AKT Combines of Olean a bunch of taunts due to my Covid Omicron grief over one of his teachers Charlie Lee. I taunted my Aunt Sarah McGill over my deceased grandfather Dale McGill's house on W. Sullivan St. and their refusal to use it, I taunted someone named Susan Knapp over that fake burner number because I was exhausted giving him rides still at that point in his life.

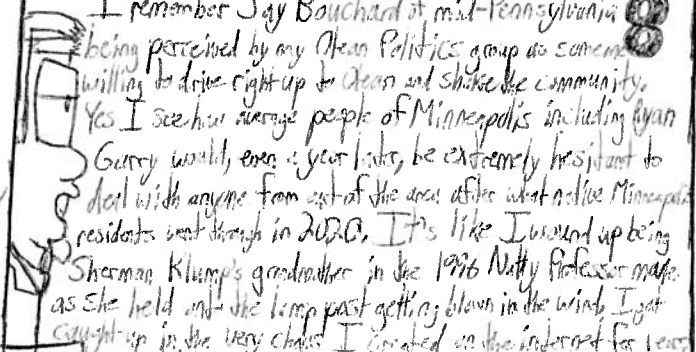

6 It just happened to be someone I never even met face to face named Ryan who was clearly destined to be the one to crack down on the digital defamation of character violations I treated as my personal Jerry Springer entertainment for so long. I absolutely remember sitting in Olean McDonald's January 2020 making all those Google profiles going up against my private firm and I remember standing outside in my N. 13th St. neighborhood around midnight looking at all the households with Covid era fighting the Olean Police. I couldn't do anything about with anything while I taunted Ryan. I was on my iPhone until I was told to stop. I was on the sidewalk around midnight looking at all the households with Covid era fighting the Olean Police.

7 I was absolutely not about to drive out to Minneapolis right then. I was also extremely non-sober as I sent that email. Since at that point I was complaining about the Olean Police not being able to do anything about the neighborhood I was calling 911 on as one of them, broke down my front door Oct. 2021, maybe that's what I got to going to an anti-police riot in a city I'm not even from. Doesn't take an expert to see that the Libertarian party is not the best "people treatment" club nor is it accomplished enough to lead it's followers into proper knowledge on how to really use all levels of government to one's advantage. The fact that it's followers dedicated Covid crisis to a "people treatment" club shows its lack of sensitivity.

8 I remember Jay Bouchard of mid-Pennsylvania being perceived by my Olean Politics group as someone willing to drive right up to Olean and shake the community. Yes I see how average people of Minneapolis including Ryan Garry would, even a year later, be extremely hesitant to deal with anyone from out of the area after what native Minneapolis residents went through in 2020. It's like I wound up being Sherman Klump's grandmother in the 1976 Natty Professor movie as she held on like a limp post getting blown in the wind. I got caught up in the very chaos I created on the internet for years. It's not like I met Benjamin at a beach party, I am fully aware of my circumstances' reality.

Jailhouse Lawyer Inc. CEO Luke Marshall Wenke

Let the people in prison have Seneca cigarettes and cigars at the commissary stores.

I think it was Tim Allen who did 2 years for dealing cocaine and it was his judge who said it was funny. I get to draw pictures like this.

Orders of protection typically aren't this legally burdensome.

Put a flush button in all the showers in case bottom bitches like Teaser pop.

The May 2nd psychiatrist asked me if I masturbate to the thought of Benjamin in jail. I don't know what he put. Anyways, Rubio wore this outfit at Allenwood so I said me too.

Adam ha Rishon, synchronicity, divine timing, 1 Corinthians 12, and All Father Yahweh. So yeah we're all going to get over this eventually and do more exciting things like raise money at Shea's Theatre for Katie to become a federal halfway house owner.

I came in peace July 2021. I wanted to meet the guy who took my side over Mark.

Who told Katie I'm in this room? Recorded phone line evidence.

Did Katie spend these last 25 years preparing a falsified digital footprint of me since she had my FBI Discovery before my relatives did?

If NY state went Texas and New Hampshire on open carry laws then the Tops Supermarket Shooter wouldn't have been a thing. Libertarian Republicans typically agree.

I was at Obama's first inauguration with my paternal grandfather and uncle, and I got Larry Sharpe on Kennedy Nation, Dave Rubin, and Joe Rogan back in 2018.

My middle name has one L, not two. Therefore reasonable suspicion to believe you convicted my stunt double.

We need to make public safety satellites to orbit the Earth, public safety cameras for every last telephone pole, and video call technology for every last courtroom for interstate subpoenas at Siemens Dresser Rand of Olean to simplify infractions like this. Then we can repeal interstate threats and cyberstalking entirely. I see much more exciting court agreements on the horizon than what we are currently dealing with.

Everybody go stand outside the probation office with Matt Zenger, look up at the sky, and say cheese at your infrared, xray, panorama lens public safety satellite.

However, all white people mumble the word "nigger" under their breath at some point.

Fashionable outfit at Allenwood prison.

- Gray sweatpants
- Gray sweatshirt
- Gray scarf
- Gray hat

Let inmates have the right to drink booze. It's all natural, bread, orange juice, sugar, etc.

Suboxone is retarded, unnatural poison.

That being said, fuck the Tops Supermarket Shooter.

Ryan took my side over Mark's in 2021. Appreciated, but why?

I was watching Eddie Murphy at 6 years old. The Klump family is black.

The Fed Jet should escort Devin back home to Baltimore, MD.

Ketanji Brown Jackson makes me happy.

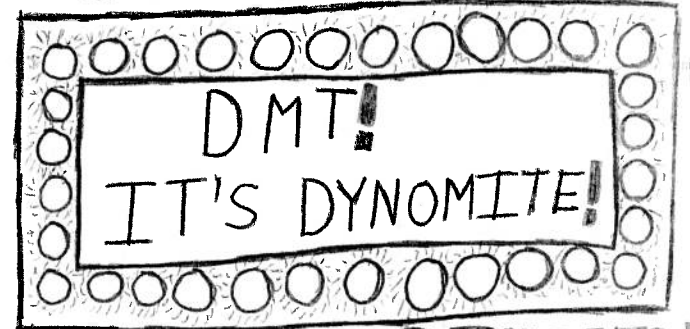

Let's beat Sputnik and Elon Musk Starlink in this very courtroom.

Reasonable suspicion
to believe that Vilardo and
Arcara have relatives out there
selling bath salts and ketamine
to the Buffalo Bills!

Judge John L. Sinatra
