

Productive Things To Do In Federal Court Other Than Throwing People Into Separate Prisons, Telling Them They're Never Going To See Each Other Again, And Year After Year Allowing The Depressing Emotions To Drag On And Assume Medication Is How You Fix The Freedom To Assemble Human Rights Crisis...

- My maternal brother can own property at 14 in 2028. Get county tax auction land, get the Department of Housing & Urban Development into the courtroom to get a loan to build a house through illegal immigrants he designs on Minecraft, get the Department of Agriculture into the courtroom and they help his new house become a 7 digit garlic farm paying for itself up the road from my mother.
- My paternal brother likes science so he needs to be a 7 digit earning nuclear power plant CEO when he turns 18 in 2032. Go back in the court notes to "I was one of the state senator's top donors" remark from me. Take that former skillset, make them all sit down with a U.S. Department of Energy official in the courtroom, put it on county tax auction land way out in the Adirondacks, make it state owned all you want, over the next 8 years make the paternal brother a state contracted CEO required to get a degree within a certain amount of time; neither me or him can afford to inherit our father's debt, so he can make 7 digits.
- Get the U.S. Space Force into the courtroom along with Siemens Dresser Rand of Olean officials accessible through John Crawford and my father's uncle [name], make Siemens Dresser Rand manufacture satellites needed to create an interstate order of protection system, contract my father in as Vice-President of Satellite Manufacturing Operations since he has an M.B.A. from the University of Tennessee he needs to use.

These are the things that take place in my mind, not public safety threat oriented ideas. I would appreciate less heartache, it is hurting the court's Yelp review section.

Check George Takei and Japanese internment camps, 2020s "rise in crime" "Freedom To Assemble" Violations separating family members who can't even email each other through Trulio and are told to testify against each other in court. U.S. Supreme Court decided Mexican illegals can be detained in Texas "for now". When will this national nightmare end? Sad hearts everywhere, happier productive things to do with everyone.

①

I kindly remind the courtroom that the word violent is an adjective that I do not identify as, nor is the conviction on paper a violent B level felony to begin with. Please ask my father for the picture of myself and [sibling] in a stroller from 2021. The baseless insults towards my demeanor from probation and Hatis are borderline Cruel and Unusual Punishment.

All Donald Trump appointed federal officials are hereby required to denounce all ludicrous government healthcare mandates including but not limited to mental health. Obama are bankrupted us.

It is a violation of Equal Protection Under The Law for only prosecutors to have the ability to subpoena someone into the courtroom the same way it is a violation of Equal Protection Under The Law for public defender's offices to receive their funding from prosecutor's offices. Private firm representation financially stands alone. Republican President Warren G. Harding commuted labor rights activist Eugene Debs' sentence. Perhaps it takes a second Donald Trump administration for a public defender's office labor rights strike to occur. Time to free the slaves.

I hereby give Frank Passafiume my written permission to subpoena any and all relatives from my father's side of the family who can attest to my character. My father Kevin is available at [phone number]. My grandfather Paul is available at [phone number]. My grandmother Cindy is available at [phone number]. I also give Frank my written permission to subpoena any and all current or former elected officials who knew me before Covid, including but not limited to state senator George Borrello (picture of me, him, and my mother at his May 2021 fundraiser), John Crawford of the Olean City Council (he knows my father Kevin too), Kevin Bartholomew of [address] in Olean along with his friends Assemblyman David Di Pietro of East Aurora, his wife who used to like all of my Facebook posts, Paul Kenyon of [address] in Portville, and their friend Earl Paladino who included me in his bowling league in 2020. Former Olean City Councilman Kevin Dougherty of [address] in Olean who

I have not yet given Frank Passafiume my discretion to suppress any evidence from this until-2025 temporarily occupied district courtroom but I maintain the future right to do so privately.

talks about me in his Life 22 show on Facebook. Former Olean City Councilman Adam Jester of the [building] building of [address] Salamanca zoning Board Member Michael Crick of [address] in Salamanca (he is a Lilydale accredited psychic medium who said I would wind up with Benjamin Ryan). Former 2018 Libertarian candidate for Governor of New York Larry David Sharpe whose address is on Google. Perennial presidential candidate and former Max Watters of Fox News guest Vermin Supreme of Rockport, M.A. Former United Nations Ambassador to the Bosnian and Serbian War Ken Armstrong (met my father, I believe they are still Facebook friends).

I give Frank Passafiume the legal discretion to subpoena Andrew and Krystie of the Buffalo F.B.I. who met me on my porch in Olean July 2020 and face to face after that on several occasions. He may ask them why they assumed I knew everything about Minneapolis in 2020.

I give Frank Passafiume the legal discretion to subpoena my now retiring former high school Principal Chris Siebert so he can testify to the Youtube video I believe is still up about us, Salamanca High School.

Nobody gets promoted to U.S. Appeals Court without acknowledging the Constitution. We are allowed to ask questions in the courtrooms of presumptive U.S. Appeals Court Judges as prep for 2025. The public defender's office's Equal Protection Under The Law rights are being jeopardized. All presumptive U.S. Appeals Court Judges have the blessing of the former Cattaraugus County Libertarian Chairman to subpoena my cousin Paul Henry's friend Carl Paladino into the courtroom and detain him until he helps future Appeals Judges get on St. Bonaventure alumni Neil Cavuto's Fox News show to discuss

(3)

work then I don't see why some kind of deal with Carl can't be worked out. Brett obviously made money his whole life so if my mother can make the jump from piano to opening a restaurant then I don't see why Brett can't expand into Western New York business beyond exclusively North Carolina. Deport all the illegals from North Carolina and put them in Carl's properties so they can fix Interstate 86 for all I care, pay Brett to drive them up here.

Federal litigation is an exotic concept to people in my part of Cattaraugus County, yet Siemens Dresser Rand of Olean thinks it has a fighting chance by sheer force of John Crawford getting a seffie with Chuck Schumer advocating for the place. I don't see why [Victim-1] can't be networked into Olean and get a

satellite office there. You also have Cutco Knives of Olean and you have Strohmann's bakery/factory of Olean. You have my godmother's family the Dwyers of Olean who are lifelong government subsidized lawyers. Kellen Dwyer works at the Pentagon and frankly nobody cares. So you might as well get the Dwyers working for a [Victim-1] satellite office in Olean doing corporate law.

The Connection was a call center in Olean that has been since replaced by another brand. It's not like Olean is that far off from the national reality. The Pal-File Factory was once in Olean before mass retirement hit the place and it moved to Mexico where nobody asks for lavish retirement entitlements. Get these illegals on the contracted into our area fixing the roads and infrastructure. I feel like a [Victim-1] satellite office in Olean isn't a far fetched concept. Put him in that Manny Hammy building ever Katie could point out. [Victim-1] gets a nice penthouse

4) Defend my mother and her husband's Joe and Elaine Dwyer's job at the over failing Pentagon and make him relocate back home to Olean so he can be the manager of a [Victim-1] Olean satellite office,

Joe and Elaine Dwyer, [address]

Joe has 8 other kids out there, please audit all 12 of his offspring's professional credibilities, lots of Olean based lawyer employee capabilities to work at a [Victim-1] satellite office in Olean thanks to the Dwyer lawyer dynasty of Olean,

view of 7/11 if he gets to the top of the Manny Hammy building. You have St. Bonaventure University of Olean and Jamestown Community College has a branch there too. There is a minor airport outside Olean, too. So I think a [Victim-1] satellite office in Olean would be a unique monopoly for the region. Wealthy Canadians go to Ellicottville all the time and the Nelson Law Firm's owner John Nelson decided to close his place in Ellicottville and go Lejay in the U.K. since Covid hit. Much more to litigation than the inner cities and I think South Dakota native [Victim-1] agrees. So I guess we would need to introduce him to Claudia Attard the realtor of Olean and Joe Bantelman the insurance guy of Olean who has a place in Rochester too.

What are we going to do? Talk shit over writing and yell a bunch of obscenities into the void forever. Seasonless ramen with spicy jalapeno squeeze cheese is something we can have in the real world too, not just jail commissary. We don't need to make fake Recon profiles and fake burner numbers to talk forever.

-Luke Wenke

① Is Katie forging my handwriting writing more letters to the court herself like she was at the end of 2023? She needs to stop this myken so we can help get her her own home in Olean. Read below ↓

The court is stalling on a peaceful resolution to all matters. Allow me to jumpstart the court on solutions for everybody I believe I am more than capable of following through on. It is much better to send letters like I have been doing containing finishing touches to truthful facts and now this letter containing very achievable offers.

The city of Olean has always had a blighted housing problem. I know former city councilman/current city employee Kevin Dougherty, I know city council president John Crawford and so does my father Kevin, the Mayor Bill Aiello knows me as well as several relatives like Dave and Paul Kenyon, I believe J.R. Bennion is on the city council these days and I last sat down with him in 2020. Katie is no stranger to Olean and she is already nationally professionally connected as it is. The U.S. Dept. of Housing and Urban Development has its own officials as does any credit union. To get one of their officials into the courtroom to sign a loan/grant agreement with who I assume would wind up being Kevin Dougherty to fix up an Olean house for her to live in would be possible. John Crawford has authority on the city council and he knows both me and my father. John would make the motions to put the Olean house into Katie's name. Olean has always had a stray cat problem. Katie likes cats. I think the Olean city government would give Katie tax incentives to house stray cats for herself. Blighted houses currently owned by the city hardly cost much of a down payment. I recall John Crawford once telling me a few houses available would have cost \$100 to the city of Olean. I have afforded my house myself since I bought it in cash December 2017, utility bills, property taxes, etc. Get Katie more at home trying work, tax incentives for taking care of stray cats, and she could afford all bills including the grant/loan

②

My father's side and her husband [out-of-state victim] of [address] Case 1:22-cv-00035-JLS-HKS
(works at [company]) have three kids [name], [name], and [name] who go to Spanish inclusion school. We need to shut off the [family]'s passports and stop them from making my father envious on their Tanzanian leisure trips. [Family] need to help us translate Portuguese so we can get factories going in Brazil where the minimum wage is way lower than China's, Walmart inflation is bad these days and we prefer Brazil's minimum wage over China's, from U.S. Dept. of Housing and Urban Development the lawyers in our vicinity can surely help her with. In the worst case scenario of everyone just leaving me in here, let it be my father Kevin who leads John Crawford and Katie together for this deal. Let Katie pick any Olean blighted house she wants. A house is better than no house, she lives with [name] in [city] right now. If she winds up hating the house she gets years down the road then it is a tangible asset she can sell. Katie's [name] drove her to my house when this all started in 2022 so Olean is not light years away for Katie.

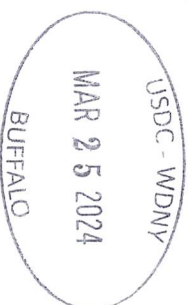

Now Brett [Ryan's dad], I believe he does water infrastructure repair as his profession and I did not know this until 2023 when I looked into him more online. Let it be known I was in Allenwood with Matthew Waddell of Goldsboro, N.C. He does the same thing. If what I think Brett does is correct, it is not hard for me to get him contracted with Carl Paladino. Carl recently bought the former Archbishop Walsh building in Olean. This was my father's high school alma mater and I substitute taught there 2014 to 2016 for a bit. Buildings like this are what Carl owns all over Western New York. I know that Brett paid private tutors to homeschool his 3 kids and his oldest son's legal representation over the years has not been cheap. Freedom To Assemble violations hold America hostage so Matthew Waddell, who I met at Allenwood is also someone Brett should know if what I think he does is correct. Kevin Bartholomew of [address] in Olean wrote a letter to this court in 2022 and there is a picture of him with Carl on his Facebook. Kevin Bartholomew knows Carl's friend Rue Thompson too. Carl Paladino's property needs are not a distant concept in my world. If my estimates are wrong that Brett does not do waters repairs
